Education

- 2024 – Now **Assistant Professor**, Universitat Pompeu Fabra, Barcelona, Spain
- 2020 – 2024 **Postdoc in Mathematics**, Université du Luxembourg, Esch-sur-Alzette, Luxembourg
- 2017– 2020 **PhD in Applied Mathematics**, LaMME, Université Paris-Saclay, France
- 2015 - 2017 **Master Degree in Mathematics**, Università Statale di Milano, Italy
- 2016 - 2017 **Visiting student**, Université Paris VII Diderot, France

Publications

- Nov 2025 C. Amorino, c. Brownlees, A. Ghosh. Concentration inequalities for suprema of empirical processes with dependent data via generic chaining with applications to statistical learning
- Jul 2025 C. Amorino, A. Gloter. Factorization by extremal privacy mechanisms: new insights into efficiency
- Jul 2025 C. Amorino, L. Coutin, N. Marie. Fixed-point estimation of the drift parameter in stochastic differential equations driven by rough multiplicative fractional noise
- Feb 2025 C. Amorino, I. Nourdin, R. Shevchenko. Fractional interacting particle system: drift parameter estimation via Malliavin calculus (**Stochastic Processes and Applications**, under minor revision)
- Dec 2024 C. Amorino, C. Dion, A. Gloter, S. Lemler. Nonparametric estimation of the stationary density for Hawkes-diffusion systems with known and unknown intensity (**Annales de l'Institut Henri Poincaré: Probabilités et Statistiques**, to appear)
- Oct 2024 C. Amorino, V. Pilipauskaitė. Kinetic interacting particle system: parameter estimation from complete and partial discrete observations (**Stochastic Processes and Applications**, under revision)
- Aug 2024 C. Amorino, E. Nualart, F. Panloup, J. Sieber. Fast convergence rates for estimating the stationary density in SDEs driven by a fractional Brownian motion with semi-contractive drift (**Annals of Statistics**, under revision)
- Aug 2024 C. Amorino, F. Pina, M. Podolskij. Sampling effects on Lasso estimation of drift functions in high-dimensional diffusion processes (**Electronic Journal of Statistics**, pp. 5068-5116.)
- Jan 2024 C. Amorino, A. Gloter, H. Halconruy. Evolving privacy: drift parameter estimation for discretely observed i.i.d. diffusion processes under LDP (**Stochastic Processes and Applications**, pp. 1-34)
- Jan 2024 C. Amorino, D. Belomestny, V. Pilipauskaitė, M Podolskij, S. Zhou. Polynomial rates via deconvolution for nonparametric estimation in McKean-Vlasov SDEs (**Probability Theory and Related Fields**, pp. 1-46)

- May 2023 C. Amorino, A. Gloter. Minimax rate for multivariate data under componentwise local differential privacy constraints (**Annals of Statistics**, pp. 1176-1202)
- Feb 2023 C. Amorino, A. Jaramillo, M. Podolskij. Quantitative and stable limits of high-frequency statistics of Lévy processes: a Stein's method approach (**Bernoulli**, under revision)
- Oct 2022 C. Amorino, A. Jaramillo, M. Podolskij. Optimal estimation of local time and occupation time measure for an α -stable Lévy process (**Modern Stochastics: Theory and Applications**, pp 1-20)
- Aug 2022 C. Amorino, A. Heidari, V. Pilipauskaitė, M. Podolskij. Parameter estimation of discretely observed interacting particle systems (**Stochastic Processes and Applications**, pp. 350-386)
- Aug 2022 C. Amorino, A. Gloter. Malliavin calculus for the optimal estimation of the invariant density of discretely observed diffusions in intermediate regime (**Annales de l'Institut Henri Poincaré: Probabilités et Statistiques**, pp. 1-45)
- Feb 2022 C. Amorino, A. Gloter. Estimation of the invariant density for discretely observed diffusion processes: impact of the sampling and of the asynchronicity (**Statistics**; pp. 1-47)
- Oct 2021 C. Amorino, A. Gloter. Minimax rate of estimation for invariant densities associated to continuous stochastic differential equations over anisotropic Holder classes (**Scandinavian Journal of Statistics**, pp. 1-64)
- Jan 2021 C. Amorino, E. Nualart. Optimal convergence rates for the invariant density estimation of jump-diffusion processes (**ESAIM: Probability and Statistics**; pp. 126-151)
- Nov 2020 C. Amorino, C. Dion, A. Gloter, S. Lemler. On the nonparametric inference of coefficients of self-exciting jump-diffusion (**Electronic Journal of Statistics**; pp. 3212-3277)
- Nov 2020 C. Amorino. Rate of estimation for the stationary distribution of jump-processes over anisotropic Holder classes (**Electronic Journal of Statistics**; pp. 5067-5116)
- Jan 2020 C. Amorino, A. Gloter. Invariant density adaptive estimation for ergodic jump diffusion processes over anisotropic classes (**Journal of Statistical Planning and Inference**; pp. 106 - 129)
- Oct 2019 C. Amorino, A. Gloter. Joint estimation for volatility and drift parameters of ergodic jump diffusion processes via contrast function (**Statistical Inference for Stochastic Processes**; pp. 1 - 88)
- Apr 2019 C. Amorino, A. Gloter. Unbiased truncated quadratic variation for volatility estimation in jump diffusion processes (**Stochastic Processes and Applications**; pp. 5888 - 5939)
- Jul 2018 C. Amorino, A. Gloter. Contrast function estimation for the drift parameter of ergodic jump diffusion process (**Scandinavian Journal of Statistics**; pp. 1 - 68)

Grants and Funding

- **Ramón y Cajal Fellowship**
5-year individual grant from the Spanish Ministry of Economy - Approx. € 300.000 (2025)
- **PhD Fellowship Awarded by the SPECTRUM Doctoral School**
Funding to support a jointly supervised PhD student. Co-PI: Radomyra Shevchenko (2025)
- **"International PhD Thesis" Program**
Funding to support a PhD student. Co-PIs: Radomyra Shevchenko, Greg Pavliotis (2025)
- **Oberwolfach Foundation Fellow Grant**
Approx. €200 (2025)
- **Research Visit Funding – Université Paris Dauphine**
Approx. €6.000 (2024)
- **Research Visit Funding – Università di Verona**
Approx. €4.000 (2024)

Organization conferences

Co-organizer of the Statistics seminar at Universitat Pompeu-Fabra, 2024-now

Co-organizer of the Probability and Statistics seminar at University of Luxembourg, year 2023-2024

Co-organizer of conference on high dimensional statistics at University of Luxembourg, 28 Aug-1 Sep 2023.

Co-organizer of "Statistics for Stochastic Processes: SDEs, SPDEs and concentration of measure" at the Mathematics Department of the University of Luxembourg, 7-9 September 2022.

Talks

Over the past few years, I have given around 70 oral presentations at conferences and seminars, the majority of which were by invitation. For a full list of these engagements, please visit my website.

Review activity

I have served as a referee for approximately 50 manuscripts submitted to various academic journals. Among these journals are the following:

AIMS Mathematics, Annals of Statistics, Bernoulli, Econometric Theory, Electronic Communications in Probability, Electronic Journal of Statistics, Journal of Econometrics, Journal of Machine Learning Research, Journal of Multivariate Analysis, Journal of Statistical Planning and Inference, Statistica Sinica, Statistical Inference for Stochastic Processes, Stochastic Processes and Applications, Stochastics.

Academic Tutoring

I have supervised several Bachelor's and Master's theses at the University of Luxembourg. Additionally, I was an associate of the Maths Team at the University of Luxembourg, where we organized training sessions for high school students preparing for mathematical competitions.

Languages

Italian (Mother tongue), English (Fluent), French (Fluent), Spanish (Fluent), German (Beginner).
